

2nd Terra Preta Workshop 2009

The Terra Preta Nova Group used the opportunity to meet during the annual meeting of the Brazilian Society for Scientific Progress (SBPC) . The meeting took place in Manaus, July 16 and 17, 2009. More than 16 oral presentations provided an impressive overview about Brazilian Terra Preta and Biochar research (download agenda)

Download presentation (Steiner and Woods)

The presentation provides an overview on the history of Terra Preta and Biochar research. The biochar history is older than expected and biochar is not as exotic as sometimes thought.
